Re: Circle Cliffs Mine
Clark Mining Inc.
ACT/017/013
Garfield County, Utah

Dear Mr. Clark:

The Division has completed the cursory review of the Mining and Reclamation Plan submitted by your company on May 5, 1980. The Division has several questions regarding the plan that you have submitted; (1) A map is needed which shows the surface facilities, the location of any storage areas for waste tailings or topsoil, (2) More information regarding grading, regrading, testing and revegetation is required by the Division. The points under grading and regrading A-E need to be addressed by the operator, points 1-3 of testing must also be addressed, under revegetation point 1 on the method of seeding, point 3 revegetation plan and schedule and point 6 methods of monitoring the revegetation must be addressed by the operator.

The Division appreciates your cooperation. Please call if you have any questions.

Sincerely,

THOMAS J. SUCHOSKI
ENGINEERING GEOLOGIST
